Vienna, Austria

KI Entwickler · I turn ambiguous problems into calm, useful digital products — bridging design sensibility with dependable engineering.

Profile

I'm a product-minded engineer who cares about the entire experience: the sentence that sets expectations, the interaction that builds confidence, and the system that keeps working after launch.

Experience

Lead Product Engineer 2022 — Now

Northstar Studio
Vienna · Hybrid

Led small cross-functional teams from discovery to launch, building accessible product systems used by thousands of people.

Product strategy

React

TypeScript

Design systems

Senior Frontend Engineer 2019 — 2022

Fieldwork Labs
Berlin · Remote

Created a shared interaction language across three products and introduced an evidence-driven accessibility practice.

Selected work

Pulse

A humane operations console

Reframed a noisy monitoring workflow into a focused decision surface, reducing incident triage time by 34%.

Research

Systems design

React

<https://example.com>

Common Ground

Local climate action platform

Designed and built lightweight tools that help neighborhood groups turn intent into coordinated action.

Open source

Maps

Progressive web app

Capabilities

Shape

Product discovery, information architecture, prototyping, technical strategy.

Build

TypeScript, React, Node.js, APIs, PostgreSQL, testing, delivery systems.

Refine

Design systems, accessibility, performance, interaction and content design.

Lead

Mentoring, facilitation, roadmap definition, cross-functional alignment.

Education

MSc Human–Computer Interaction 2017 — 2019

TU Wien
